

A STABILUS COMPANY

SAFEGUARDING MACHINERY AND
ENSURING PRECISION WITH ACE CONTROLS

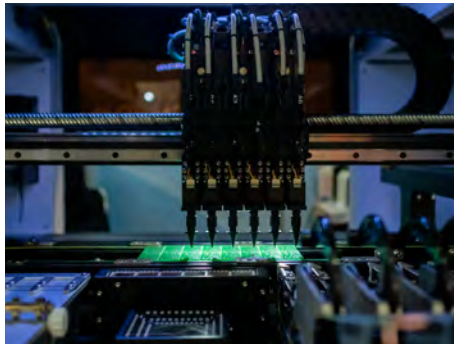

**SEMICONDUCTOR
MANUFACTURING**

CORROSION RESISTANT
CUSTOM DESIGNS AVAILABLE
DURABILITY TESTED
MADE IN THE USA

CLEANROOM READY SOLUTIONS

for machine protection and long lasting endurance
in the semiconductor manufacturing industry

ACE Controls offers industry-leading shock absorbers, gas springs, profile dampers, along with various other products that are meticulously engineered for semiconductor manufacturing. Our products guarantee precision, reliability, and longevity, enabling our clients to optimize their production processes and achieve unparalleled performance.

- Highly precise damping
- Stainless steel and nickle plated construction
- Emergency rated application
- Leybobot PFPE oil

AUTOMATION

Miniature Shock Absorbers
Industrial Shock Absorbers

- Higher cycle rate
- End damping
- Custom force
- Stainless steel and nickle plated construction
- Adaptable end fittings

MOTION

Industrial Gas Springs
Push and Pull Type

- Highly efficient Co-Polester Elastomer
- Maintenance-free
- Self-contained damping element
- Cost-effective

SAFETY

Profile Dampers
Safety Bumpers
